COUNTRY INFORMATION

Anguilla is a British overseas territory in the Caribbean, one of the most northerly of the Leeward Islands in the Lesser Antilles. It consists of the main island of Anguilla itself, approximately 26 km long by 5 km wide at its widest point, together with a number of much smaller islands and cays with no permanent population. The island's capital is The Valley. The total land area of the territory is 102 sq km, with a population of approximately 13,500 (2006 estimate). Offshore companies based in Anguilla have become increasingly sought after both for their high level of confidentiality and their speed of registration.

POLITICAL STRUCTURE

Anguilla is an internally self-governing overseas territory of the United Kingdom included on the United Nations list of Non-Self-Governing Territories. Its politics take place in a framework of a parliamentary representative democratic dependency, whereby the Chief Minister is the head of government, and of a pluriform multi-party system. The territory's constitution is Anguilla Constitutional Order 1 April 1982 (amended 1990). Executive power is exercised by the government, while legislative power is vested in both the government and the House of Assembly. The Judiciary is independent of the executive and the legislature.

ECONOMY

Anguilla's main industries are tourism, offshore incorporation and management, offshore banking, captive insurance and fishing. Anguilla's currency is the East Caribbean dollar, though the US dollar is also widely accepted. The exchange rate is fixed to the US dollar at US\$1 = EC\$2.70.

POPULATION

The majority of Anguilla's residents are black (90.08%), while growing minorities include whites (3.74%) and people of mixed race (4.65%) according to figures from a 2001 census. 72% of the population is Anguillian while 28% is non-Anguillian (2001 census). Of the non-Anguillian population, many are citizens of the United States, United Kingdom, St Kitts & Nevis, the Dominican Republic, Jamaica and Nigeria. 2006 and 2007 saw an influx of large numbers of Chinese, Indian, and Mexican workers, brought in as labour for major tourist developments due to the local population not being large enough to support the labour requirements.

LANGUAGE

"Standard" English is Anguilla's official language, however, the other most common language is the island's own English-lexifier Creole language, referred to locally as "dialect" (pronounced "dialek"), Anguilla Talk, or "Anguillian". Other languages spoken on the island include varieties of Spanish, Chinese and the languages of other immigrants.
